HAZING

During the last twenty (20) years as many as FIFTY (50) pupils in the Northern Schools and Colleges and FOUR (4) in Southern Schools and Colleges have been PUT TO DEATH by hazers, many more have been injured for life and the guilty parties have gone Scot free.

HAZING is absolutely excluded from Bingham by our pledge of honor against it, as any patron or pupil of the School for the last four years will testify.

Our safety against FIRE and the absence of HAZING differentiate Bingham from any other Institution of Learning in the U. S.

PRO BONO PUBLICO

PREFACE

In submitting Volume XII of the Asheville City Directory, it is gratifying to note the progress that is being made in industries and growth of population.

A great factor in the upbuilding of any city is its civic pride; the fact that your citizens stand as a unit on everything that affects the prosperity of your city is worthy of commendation.

The City Directory is one of the foremost enterprises of any city; it is generally referred to by the press of the whole country as a semi-public institution of great value.

The Directory is more than a mere list of names of residents, giving their various occupations and addresses, it is an infallible guide to your city, for your people and for the stranger within your gates. It not only deals with your people, but with your government, your institutions and various other organizations. It is a recognized standard work of reference and becomes the most reliable history of your city and its citizens. As there is no other publication in the world which gives the information as contained in the City Directory, there is probably no other publication in which all the people are so vitally interested.

To gather the data and compile a volume of this character is no easy task. It requires much time, a well defined system, the patience of Job and incurs no little expense. Few people have any idea of the work it means and the tenacity it takes to publish a reliable directory.

In preparing this book the publishers have spared neither time nor expense, and if errors occur or a single name is omitted which should appear in the work, it is generally the fault of the public and not of the publisher, as every house is visited and it is not the publisher's or canvasser's fault if some one fails to give all the information or gives it incorrectly. The intentions of the reliable publisher are always for improvement, and you can always count on getting as accurate a directory as circumstances will permit.

The estimate of the population of a city is a matter necessarily enjoined upon the directory publisher; such estimates, however, are not merely theoretical, but based on facts, sustained by the contents of the publication.

This volume contains 13,150 names of individuals; using the conservative multiple 2½ times, to represent the names of married women and children not counted, indicates a population of

32,875

(This does not mean simply population inside the city limits, but takes in consideration all suburbs included in the Directory.)

In concluding, we desire to thank our patrons for their support and to extend our thanks to the public in general for the courteous way in which nearly everyone supplied our canvassers with the desired data. We shall continue this publication from time to time to meet the demand.

Yours truly,

PIEDMONT DIRECTORY CO., ERNEST H. MILLER, Pres.

HEALTH IS COMBUSTION

My business is aiding nature to dispose of this unwelcome abnormality. I accomplish this by means of a physiological, scientific system of manual manipulation of the structure which, by accelerating the circulation, increases combustion and so facilitates the natural elimination of a diseased condition. In short, I make it possible for the body to purify itself by improving the circulation. This is the object and certain result of Mechano Therapy.

I do not disparage the noble art of the physician and surgeon, and if your sickness is not amenable to Mechano Therapy, I shall tell you so frankly.

St. Genevieve's College

is both a Boarding and Day School and within easy access of the car line though sufficiently removed from the city to prevent the college work being disturbed by the noise of traffic. A private bus (free of charge) conducts the day scholars to and from the college.

The faculty is a body of experienced teachers, each holding one or more degrees in European universities, several from Oxford as well as from the continent, with their Ph. D., B. A., M. A. etc. degrees from Vassar. German and French are taught by thoroughly qualified native sisters, and the same might be very significantly said of the English language as well.

From music and mathematics to household economics and sewing, the ground is well covered. Unlike many other schools no extra charge is made for French, German, Needlework and Physical Culture. There is also a Commercial Department in connection with the college. Basket Ball and Tennis Courts are laid out in the spacious grounds.

St. Genevieve's is divided into three distinct departments:

THE PREPARATORY—

Which covers the program of regular grammar schools. Boys are admitted up to the age of thirteen.

THE ACADEMIC—

Which corresponds to the High School.

THE COLLEGE—

Which leads to Degrees.

These two last cover four years each.

Young children are also received as boarders and have their special quarters.
